GENERAL QUESTIONS

What is a Package Trip?

A package is a complete trip you can design yourself and purchase with one, easy transaction. You can choose your flights, hotel room, and whether or not to add extras; such as a rental car, show tickets or round-trip transfers. You can customize it to suit your needs and then purchase the package for one affordable price, on one convenient reservation.

How does a package benefit me?

We make it simple because you can customize your trip to include what's right for you. Plus, we strive to bring these selections to you at a more attractive price than if you purchased them individually. After you've made your selections, you can purchase your reservation with one, easy transaction. While you're on your trip, you'll have access to our 24-hour traveler assistance. So, from beginning to end, we're here to help.

How far in advance can I purchase a package?

Typically, our scheduled air carriers have flights available up to 330 days in the future. Hotel restrictions may also apply, if you're having problems booking, please contact us at 1-800-613-8009 and we'll be happy to assist you.

What are the resort fees?

Resort fees package many of the hotels most requested services that previously required individual, outside vendor charges including in-room internet service, access to the fitness center, food and beverage discounts, printed airline boarding passes, daily newspaper, local and toll free calls, copies, faxes and other services (subject to change). The resort fee is collected upon arrival at the hotel, and most guests find that even after adding the resort fees to the package, TI represents one of the least expensive AAA Four Diamond resorts on the Las Vegas Strip.

How important are the Terms and Conditions?

They're very important. The Terms and Conditions outline our policies and procedures. You must read and understand the Terms and Conditions before you complete your reservation online as your reservation will be subject to them.

What is the Cancellation Waiver?

We make the cancellation waiver available with your package to give you a little peace of mind. It allows you to cancel without incurring hotel penalties. You can learn the full details of the Cancellation Waiver by clicking on it in the booking process.

How do I find hotel descriptions?

While you're in the process of making your booking, you can simply click on the hotel's name to find out more about it.

How close to departure can I purchase a package?

Packages can be purchased up until the day before departure..

How do I find the amount of taxes and fees that are included in my package's search price?

You may use the link in the booking process to view a detailed breakdown of the amount of taxes and services related to your trip.

When I checked the price yesterday it was lower than it is today. Why?

When you price our packages, you view live inventory. Because prices are based on many factors, including availability of rooms/room types, flights and demand for the packages, prices can fluctuate, even within minutes. The only way to secure your price is to pay for it in full.

How do I search for a package?

Use the search tool on the home page to search for a package. After you enter your search criteria, the web site automatically searches for the best value-priced package and will preselect your flights for you. You can modify them at any time before purchase by simply selecting the flights screen.

BOOKING YOUR TRIP

Why must I supply the billing address of my credit card in order to book online?

In an effort to prevent credit card fraud, we require the billing address for the owner of the credit card and will verify the information with the credit card company during the authorization process.

How will I receive my reservation confirmation?

When you purchase your package online, your credit card is processed immediately and a travel itinerary is sent via e-mail for your records. The travel itinerary will be sent to the e-mail address you entered when completing the booking.

Occasionally, e-mail travel itineraries do not successfully reach their recipients. Examples of when this may happen include:

1. The e-mail address was entered incorrectly.
2. Your e-mail provider blocked the e-mail with a spam filter. Make sure you add us to your address book. (Please note, you can check the setting in your e-mail spam filter and ask your e-mail provider to stop blocking your emails.)
3. Your e-mail box was full.
4. If you do not receive an e-mail travel itinerary within ten minutes, you can review your confirmed reservation online. You will need the password you typed when making the reservation and the reservation number. You may also contact our Internet Help Desk for additional assistance.

Can I change the sort order for flights, extras, and cars?

Yes. Use the drop down menu at the top of the flight screen to sort flights by your preferred category.

You can also use the drop down menus on the cars and extras on the car screen to sort the cars by price or brand.

How do I book more than one hotel room?

There is more than one way to booking multiple hotel rooms.

A separate reservation can be made for each room. Complete the entire reservation for the first room and then start over to complete the process for each additional room required. If you merely enter four names on the reservation, we will not know you want two rooms and will only put you in one. You will be subject to any increase in cost associated with adding an additional hotel room to this type of reservation.

Another way to book multiple rooms is to contact Customer Care at 1-800-613-8009. They will be more than willing to assist you with your multiple room request.

You can use the multiple rooms function available within our booking engine, which is currently available from the advanced search page.

How do I make requests for bedding or smoking preferences?

You may enter your requests at time of booking, or if you forget, you can contact our customer care team. You may make a request for smoking preference, bedding preference, rollaways, etc. However, it is only a request. There is no guarantee of fulfillment on special requests. Be sure to reiterate your request upon checkin. Some requests may require an additional charge payable directly to the hotel.

But I really need two beds - can you please guarantee that request?

Hotels maintain a mix of rooms with one or two beds that they have determined best meets their customer needs. Sometimes they receive more requests than they can accommodate in a certain room type, so unfortunately, there may be a rare occasion where your request cannot be honored. However, rest assured that we do everything we can to communicate your preferences to the hotel. The same applies for smoking requests.

How do I book an infant?

According to airline regulations, an "infant" is a child under the age of two. Infants do not require an airline seat and can sit on the lap of an adult traveler while flying ("lap child"). If an infant is traveling with you and you do not purchase a seat for the infant, you must contact the Customer Care Center to add the infant to your online reservation.

For some international destinations, additional taxes may apply when you include an infant on the reservation. The airline may also issue a ticket for the infant traveler.

How do I know what the price includes?

When you search for a package, the availability prices always include the combined hotel and flight prices, feature prices, and all applicable air and hotel taxes and fees. The web site does not add any surprise taxes or fees to the air and hotel vacation prices when you confirm the reservation.

Note: Car prices do not include local state taxes, which are paid upon arrival at the car rental location at the airport in the destination. Car prices do not include extra day charges. Extra day charges may apply if your return flight is one hour (or more) later than the scheduled drop-off time for your rental car.

How do I know my online transaction is secure?

We utilize Secure Sockets Layer (SSL) to encrypt and protect your personal information. SSL keeps the data private and confidential between your computer and us. This technology makes it safe to transmit your credit card number over the Internet.

Look for two security icons, the "s" after "http" in the address line and the lock in the top menu bar and bottom status bar of your browser in Netscape (or in the bottom status bar only in Internet Explorer).

Can I purchase a package on the phone?

Yes, you can purchase a package by phone. However, our best prices are found right here on the website. You may be subject to a higher rate when calling our customer care team. Purchasing a package online is safe, convenient and easy, so we recommend you take advantage of the prices found on our web site. If you still prefer to have a Customer Care Specialist book your vacation, see the Contact Us section.

Why must I enter children's ages when booking online?

Children's ages must be entered so our system can accurately price age-based features. In addition, it allows our system to count the number of children traveling and prevents you from being charged additional fees upon check-in.

Can I email others or myself my package itinerary before I confirm?

You can click Email at the bottom the screen during the booking process to email yourself an itinerary quote before you confirm the reservation. This email includes the itinerary details for the package you created. It is not a confirmation; the inventory and price are not confirmed and are subject to change at anytime, and you will be subject to any increase in price until payment is applied.

Why did you return different flight times than what I entered?

When you search for specific departure or return times, the web site returns flight times based on the following criteria: first it searches for the best priced flights. Then it arranges those best-priced flights in order of the closest time to what you selected in the Time preference menus for both departure and return.

Please note that if your preferred time does not appear, it may be that the air carriers do not have flights available that match your specified times.

What reservation transactions can I make online?

The web site enables you to search for flight and hotel availability, create your dream travel itinerary, email an itinerary, and confirm and save a reservation. You can also retrieve and review your online reservation.

To cancel a reservation, contact Customer Care Center at 1-800-613-8009. Be sure you review the Terms and Conditions before you cancel, as you will be subject to any applicable cancellation penalties.

You currently cannot make any modifications to your previously purchased package online, and will have to contact our Customer Care Center to do so.

When I try to price or book a trip online, I receive an error message. What should I do?

When you search for or book a package, you may receive an error message. Typically, error messages appear if the system is busy or if there are network communication problems. If you receive an error, attempt the action again in a few minutes or at a time when the system might be less busy.

If you continue to receive an error message after several attempts, email us. Include as much information as you can, including origin and destination cities, travel dates, number of adult and child (ages 1-17) passengers, hotel preference, the specific error message, and the step in the process where the message appears.

APPLYING PAYMENT

Can I use more than one credit card to apply payment?

Yes. You can use up to four credit cards to apply payment, however, you must apply payment in full spread across all credit cards or your reservation will not complete.

What happens when the web site rejects a credit card?

The web site rejects a credit card if you enter the wrong information, the credit card is invalid, or the credit card exceeds its limit. If one of these situations occurs, you immediately receive an error message. Contact our Customer Care Center at the top of the page you linked here from for assistance.

When I try to confirm my online booking, at the end of the reservations process it says that my address cannot be verified. Why?

Our system can only recognize your address if you enter it EXACTLY as it appears on your credit card billing statement. Please refer to your credit card billing statement, and try entering your address again. If you continue to receive the "cannot verify address" message, call the toll-free number on top of the page you linked here from for assistance.

This new government-imposed fee, called the "September 11th Security Fee," will be used to pay the government's cost for providing Federal civil aviation services. Follow the steps below to add this web site to your favorites.

Open your Internet Explorer, and type the web site's address in the address field. Select Add to Favorites from the Favorites drop-down menu on the top navigation bar. The Add Favorite box opens. Internet Explorer defaults to display the web site's name in the Name field.

What are "cookies" and how do I remove them from my computer?

Cookies are pieces of information that get stored on your computer when you visit or use various web sites. Cookies are not harmful to your computer; they simply "remember" information.

Although cookies do not harm your computer, it helps the efficiency of your computer if you "clean" or remove your computer's cookies periodically.

However, you can still confirm reservations, even if your computer uses a pop-up blocker.

As a general rule, if you click an item in the web site and the item does not appear, your computer's pop-up blocker may be preventing the item from displaying. You may want to temporarily disable the blocker, so you can see the missing item.
